

Project Profile

Make It Right
Lower 9th, New Orleans, LA
Constructed: 2008 to Ongoing

Scope of Work:

Phase 1: Pervious Concrete Sidewalks and driveways

Phase 2: Residential streets

Design Factors:

The lower 9th ward was devastated by hurricane Katrina. The Make it Right Foundation has been rebuilding this area with numerous sustainable technologies. This is one of three Sustainable Sites pilot projects in the US.

Concrete:

Pervious mix with 3/8" aggregate.

Placement:

Roller screed, 7 day plastic cover.
